

## WESTERN MARYLAND 2-1-1

### What is the 2-1-1 system?

The Federal Communications Commission has designated 2-1-1 as an easy-to-remember phone number to call for information and referral to health and human services. As of November 2006, 2-1-1 serves approximately 192 million Americans - over 65% of the US population - covering all or part of 41 states, including 70% of Maryland.

2-1-1 is answered by trained Call Specialists who assess the callers' needs and link them to the right solutions using a comprehensive database of federal, state and local services - both government and nonprofit.

- **Support for older Americans and people with disabilities:** adult day care, telephone wellness checks, meals, respite care, home health care and transportation services.
- **Support for children, youth and families:** childcare, after-school programs, Head Start, family resource centers, mentoring, tutoring and protective services.
- **Mobile crisis services:** when the Call Specialist deems it appropriate to send crisis response workers to the caller's home, either for child or adult services (Frederick County only).
- **Suicide prevention and intervention services:** available to anyone who is at risk of taking his or her own life and to the friends and loved ones of people who are feeling suicidal.
