

Electronic Device Usage Agreement

2023-2024

The use of technology in education is a tool to enhance the learning experience. Access will be provided for instructional use and school-related activities only. The following Frederick County Public Schools (FCPS) regulations apply while using **any** device including but not limited to school issued Chromebooks, Bring Your Own Devices (BYOD), personal cell phones, or any other electronic device used at school. Failure to comply with these regulations may result in disciplinary action in accordance with FCPS disciplinary policies ([Reg. Best Practices for Technology Use:

- Students are responsible for keeping their password confidential. Students should not allow other students to access their network accounts.
- Students are required to disclose system, account, or file-level passwords upon request of a teacher or school administrator.
- Student Accounts and Devices are intended for school-related purposes only.
- FCPS complies with the Children's Internet Protection Act. Internet safety of our students is vital. Students should not try to circumvent or disable filtering or other technology protection measures put in place by our system administrators.
- Students are responsible for the careful use and protection of the equipment assigned to them. Upon request, the student shall return equipment in good condition.
- Failure to use technology in a respectful and responsible manner may result in the loss of privileges.

School-Issued Chromebooks

FCPS does not charge a Technology Fee for student use of an FCPS issued Chromebook. When students are assigned a chromebook, charger, and case, the use of a school issued device, during the school day or at home, is a privilege that comes with responsibilities. Elementary students will leave devices at school at the end of each day, except for special circumstances.

If repair for a damaged device incurs a charge, a financial obligation will be issued.
